LITTLE FISHY SESSION

#15201AX _ _ - Little Fishy Bench Session, Color TBD

Little Fishy brings a playful, imaginative approach to seating. Used individually or grouped together in a “school” of fish, the benches encourage creative arrangements, storytelling, and informal collaboration—creating environments where learning and play naturally come together.

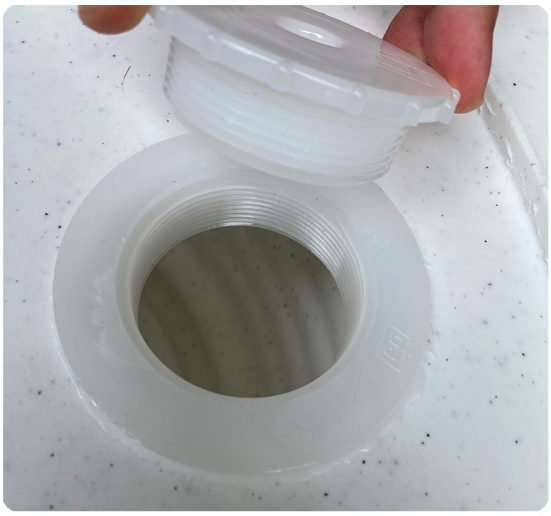

- Designed for use both indoors or outdoors, in demanding environments such as school campuses, healthcare facilities, and busy commercial & hospitality spaces.
- Extremely durable, impact resistant and strong, with a 500-pound weight capacity.
- All-weather design is rustproof, waterproof, UV-stable and fade-resistant for lasting performance season after season.
- Crafted with a one-piece construction and rounded edges for safety.
- Easy to clean with soap and water or a bleach solution, with no stitched seams or crevices where bacteria can harbor.
- Santoprene rubber legs for floor protection and anti-slip resistance.
- Available with a WeightCap ballast option, which is a threaded screw plug on the bottom of the furniture allowing up to 50-pounds of pea gravel to be added to the core for additional security.
- Made in the USA with premium materials and craftsmanship.

LITLE FISHY SESSION

WEIGHTED SEATING

Our Weightcap option is designed to provide extra weight ballast for select furniture collections, to provide enhanced wind-resistance, theft-deterrence, and to keep furniture pieces securely in place. This is particularly helpful in areas that are wind-prone such as rooftop installations, public spaces where an added level of security is needed, or in modular layout configurations to keep the furniture components correctly positioned.

The Weightcap is a threaded screw cap welded into the bottom of the furniture, allowing customers to fill the internal core with pea gravel for customized ballast. Little Fishy can accommodate up to 50 lbs. of added pea gravel weight.

The Weightcap is an option that must be specified at the time of ordering. The pea-gravel is not included, must be sourced and installed locally. For best results, use washed pea gravel with reduced dust and smaller stone sizes (1/4" to ¾" diameter stones).
