MIBSTER & RIPPLE SIDE TABLE

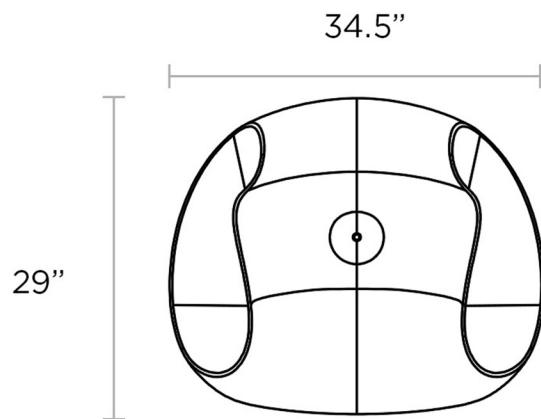

INDOOR & OUTDOOR

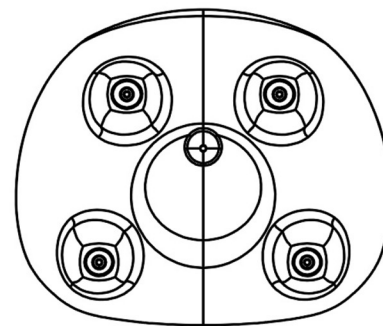

#22103BX __ - Mibster Chair Session, Color TBD

Mibster is designed with a playful form and expressive contours that create inviting seating designed to bring people together. Sculpted curves provide comfort, while the bold, spirited silhouette makes a confident design statement in any space. Designed by Nikita Bukoros, Mibster balances expressive design with everyday comfort, for seating that is as engaging as it is functional.

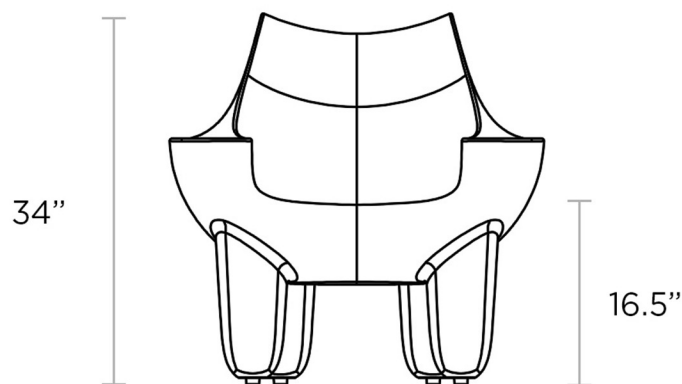

- Designed for use both indoors or outdoors, in demanding environments such as school campuses, healthcare facilities, and busy commercial & hospitality spaces.
- Extremely durable, impact resistant and strong, with a 500-pound weight capacity.
- All-weather design is rustproof, waterproof, UV-stable and fade-resistant for lasting performance season after season.
- Crafted with a one-piece construction and rounded edges for safety.
- Easy to clean with soap and water or a bleach solution, with no stitched seams or crevices where bacteria can harbor.
- Santoprene rubber legs for floor protection and anti-slip resistance.
- Available with a WeightCap ballast option, which is a threaded screw plug on the bottom of the furniture allowing up to 75-pounds of pea gravel to be added to the core for additional security.
- Made in the USA with premium materials and craftsmanship.

WEIGHTED SEATING

Our Weightcap option is designed to provide extra weight ballast for select furniture collections, to provide enhanced wind-resistance, theft-deterrence, and to keep furniture pieces securely in place. This is particularly helpful in areas that are wind-prone such as rooftop installations, public spaces where an added level of security is needed, or in modular layout configurations to keep the furniture components correctly positioned.

The Weightcap is a threaded screw cap welded into the bottom of the furniture, allowing customers to fill the internal core with pea gravel for customized ballast. The Mibster Chair can accommodate up to 75 lbs. of added pea gravel weight.

The Weightcap is an option that must be specified at the time of ordering. The pea-gravel is not included, must be sourced and installed locally. For best results, use washed pea gravel with reduced dust and smaller stone sizes (1/4" to 3/4" diameter stones).
