MOON & AMPED TABLE

SOCIAL SEATING

## #22102BX\_\_ - Moon Chair Session, Color TBD

Moon is designed as a modern interpretation of the lounge chair, with fluid and sculptural lines as though it was carved from a single block. A low, relaxed seating position invites users to settle in, while the bold yet welcoming silhouette naturally becomes the centerpiece of any social or lounge setting. Balancing retro influences with a distinctly futuristic sensibility, Moon blends timeless comfort with forward-thinking design, and designed by Mike To.

- Designed for use both indoors or outdoors, in demanding environments such as school campuses, healthcare facilities, and busy commercial & hospitality spaces.
- Extremely durable, impact resistant and strong, with a 500-pound weight capacity.
- All-weather design is rustproof, waterproof, UV-stable and fade-resistant for lasting performance season after season.
- Crafted with a one-piece construction and rounded edges for safety.
- Easy to clean with soap and water or a bleach solution, with no stitched seams or crevices where bacteria can harbor.
- Santoprene rubber legs for floor protection and anti-slip resistance.
- Available with a WeightCap ballast option, which is a threaded screw plug on the bottom of the furniture allowing up to 75-pounds of pea gravel to be added to the core for additional security.
- Made in the USA with premium materials and craftsmanship.

## WEIGHTED SEATING

Our Weightcap option is designed to provide extra weight ballast for select furniture collections, to provide enhanced wind-resistance, theft-deterrence, and to keep furniture pieces securely in place. This is particularly helpful in areas that are wind-prone such as rooftop installations, public spaces where an added level of security is needed, or in modular layout configurations to keep the furniture components correctly positioned.

The Weightcap is a threaded screw cap welded into the bottom of the furniture, allowing customers to fill the internal core with pea gravel for customized ballast. The Moon Chair can accommodate up to 75 lbs. of added pea gravel weight.

The Weightcap is an option that must be specified at the time of ordering. The pea-gravel is not included, must be sourced and installed locally. For best results, use washed pea gravel with reduced dust and smaller stone sizes (1/4" to 3/4" diameter stones).

#22102BWC \_\_ - Moon Chair Session w/ Weightcap, Color TBD
