Add a touch of greenery and nature to your spaces with our Ripple Planters. Designed with a clean, fluted aesthetic that echoes the gentle flow of water, the planters add visual depth while maintaining a calm, architectural presence that complements a wide range of environments. Designed to work beautifully on its own or as part of a layered arrangement, Ripple planters create natural moments of height, separation, and greenery in courtyards, terraces, campuses, and social spaces. Multiple sizes allow designers to build dimension and flow—softening hardscapes and shaping space with natural elements.

- Designed for use both indoors or outdoors, in demanding environments such as school campuses, healthcare facilities, and busy commercial & hospitality spaces.
- Three sizes available: Short (15.5"D x 15"H), Tall (15.5"D x 27"H), and Wide (22.5"D x 18"H).
- Multiple planters can be stacked together, to create custom height arrangements.
- All planters feature a drain hole in bottom to prevent over-watering, and an optional drip tray for use indoors or covered areas.
- Exremely durable and impact resistant, with an all-weather design for lasting performance season after season .
- Made in the USA with premium materials and craftsmanship.
